EQUIPMENT CUT SHEET

UniFi Protect + Access — 31 Cameras, 2 Fob Doors, G6 Pro Entry

A1 Party NYC • 1900 Linden Blvd, Brooklyn, NY 11207
Prepared for Sam • Ref. Your scope of work, A1_Camera_Scope_One_Phase_Rev2

UniFi G6 Pro Bullet Camera **Qty installed: 9**

4K outdoor bullet with a large low-light sensor, 2.36x optical zoom and long-range night vision. Built-in AI recognizes people, vehicles, faces and plates on the camera itself.

Resolution	4K (8MP)
Zoom	2.36x optical
AI	People, vehicles, faces, plates
Housing	All-weather, PoE+

UniFi G6 Bullet Camera **Qty installed: 6**

4K bullet camera for long views down a driveway or road. Used on the poles, where it watches the street and the yard and sends an alert when a vehicle or person is detected.

Resolution	4K (8MP)
Night vision	Infrared, about 100 ft
Smart detection	People, vehicles
Power	PoE over the network cable
Rating	Outdoor, weatherproof

UniFi G6 Turret Camera **Qty installed: 8**

4K turret camera with built-in AI that tells people from vehicles, so alerts on your phone are for things that matter, not leaves and shadows. Glare-resistant turret design that does not collect spider webs on the lens.

Resolution	4K (8MP)
Night vision	Infrared, about 100 ft
Smart detection	People, vehicles
Power	PoE over the network cable
Rating	Outdoor, weatherproof

UniFi G5 Turret Ultra Camera **Qty installed: 7**

Compact 2K turret for offices, stairs and hallways, with smart detection of people and vehicles and clear night vision.

Resolution	2K (4MP)
Detection	People, vehicles
Night vision	Infrared
Power	PoE

UniFi G6 PTZ Camera

Qty installed: 1

4K dual-lens pan-tilt-zoom camera with 10x hybrid zoom and automatic motion tracking, so it follows people and vehicles across the yard. Two-way audio lets you talk through it from the app.

Resolution	4K dual-lens
Zoom	10x hybrid, auto-tracking
Audio	Two-way talk
Power	PoE

UniFi NVR G2 Pro

Qty installed: 1

Rack-mount recorder with 8 drive bays, built to record up to 50 4K cameras. All video stays on site with no monthly fees.

Drive bays	8
Capacity	Up to 50 4K cameras
Mount	2U rack
Fees	None

UniFi Enterprise Hard Drive 24TB

Qty installed: 4 x 24TB

Enterprise-grade 24TB drives built for 24/7 video recording, installed in the recorder.

Capacity	24TB each
Duty	24/7 enterprise
Recording	About 3 months

UniFi Switch Pro Max 48 PoE

Qty installed: 1

Powers every camera, speaker and door reader over its network cable, with room to add more devices later.

Ports	48 PoE
Power budget	720 W
Mount	Rack

UniFi Switch Pro Max 24 PoE **Qty installed: 1**

Powers every camera over its own network cable from one rack-mounted switch, with spare ports to add cameras later.

Ports	24 PoE
Power budget	400 W
Mount	Rack

UniFi UPS 2U **Qty installed: 1**

Battery backup for the recorder and switch. Keeps recording through short outages and shuts the recorder down safely in a long one, so no footage is lost.

Rating	1.44 kVA
Managed	In UniFi
Mount	2U rack

UniFi Access G3 Reader **Qty installed: 2**

Compact reader for interior doors. Unlocks with a fob, card or phone (Touch Pass).

Credentials	Fob/card, phone Touch Pass
Rating	IP55, indoor/outdoor
Power	PoE from the access hub

UniFi Access Door Hub **Qty installed: 2**

Controls the lock on one door and connects its reader, so cards, fobs and phones unlock it and every entry is logged.

Doors	1
Connects	Reader, lock, exit button
Power	PoE

Heavy-Duty Electric Strike

Qty installed: 2

Replaces the existing strike plate in the frame and releases the latch when a valid fob is presented. Works with the existing lockset and lever, so free exit from inside never changes.

Mode	Fail-secure (stays locked on power loss)
Strength	3,000 lb static
Finish	Satin stainless
Monitoring	Latchbolt monitored
Power	12/24VDC

UniFi G6 Pro Entry

Qty installed: 1

Door entry station with a 12MP camera, two-way audio and a 3-inch touch display. Visitors ring it and you see, talk and unlock from the UniFi app.

Camera	12MP
Audio	Two-way
Display	3-inch touch
Power	PoE

UniFi Access Key Fobs

Qty installed: 20

Encrypted key fobs for each employee, assigned and revoked from the app.

Type	Encrypted NFC fob

Cat6 Network Cable

Qty installed: 31+ runs

A dedicated Cat6 run from each device back to the head-end. The same cable carries both data and power.

Cable	Category 6
Carries	Data + PoE power
Termination	RJ45 both ends, tested

UniFi Protect + Access App **Qty installed: 1**

Watch every camera, answer the door buzzer and manage fobs from your phone or computer, with no monthly fees. Set up and tested on your devices before we leave.

Platforms	iPhone, Android
Requires	Site internet connection

Notes

1. Every device has its own Cat6 home run to its switch. The Georgia-wall switch connects to the closet over fiber.
2. Abstract Enterprises does not do 120V electrical work or wall patching and painting.
3. Specifications are nominal. Equipment of equal or better specification may be substituted.
