EQUIPMENT CUT SHEET

UniFi Protect Camera System — 16 Cameras Including 3 x 360-Degree

NYFTA Inc • 3624 34th St, Astoria, NY 11106
Prepared for Ben • Ref. Walkthrough Oct 27, 2026

UniFi G6 Bullet Camera **Qty installed: 3**

4K bullet camera for long views across the front of the building and the sidewalk, with built-in AI that alerts on people and vehicles.

Resolution	4K (8MP)
Night vision	Infrared, about 100 ft
Smart detection	People, vehicles
Power	PoE over the network cable
Rating	Outdoor, weatherproof
Locations	Front of the building (3)

UniFi G6 Turret Camera **Qty installed: 6**

4K turret camera with built-in AI that tells people from vehicles, so alerts on your phone are for things that matter, not leaves and shadows. Glare-resistant turret design that does not collect spider webs on the lens.

Resolution	4K (8MP)
Night vision	Infrared, about 100 ft
Smart detection	People, vehicles
Power	PoE over the network cable
Rating	Outdoor, weatherproof

UniFi G6 Dome Camera **Qty installed: 4**

Vandal-resistant 4K dome for offices, stairs and entrances. Built-in AI does face recognition, so the system knows who walked through.

Resolution	4K (8MP)
AI	Face recognition, people, vehicles
Housing	Vandal-resistant, indoor/outdoor
Power	PoE

UniFi G6 Pro 360 Camera **Qty installed: 3**

12MP fisheye that sees the whole area in one camera, with digital pan, tilt and zoom in the app. Covers the open warehouse floor.

Resolution	12MP fisheye
View	360 degrees
Controls	Digital pan/tilt/zoom
Power	PoE
Locations	Open warehouse floor (3)

UniFi Protect Network Video Recorder Pro **Qty installed: 1**

Records every camera and both doorbells around the clock on site, with no monthly fees. Sized for this system: up to 24 4K cameras, with room to add more. Everything runs through the UniFi Protect app.

Drive bays	7
Capacity	Up to 24 4K cameras
Storage	Redundant (RAID) option
Monthly fees	None

UniFi Enterprise Hard Drive 16TB **Qty installed: 3 x 16TB**

Enterprise-grade 16TB drives built for 24/7 video recording, installed in the recorder.

Capacity	16TB each
Duty	24/7 enterprise
Recording	About 3 months

UniFi Switch Pro Max 24 PoE **Qty installed: 1**

Powers every camera over its own network cable from one rack-mounted switch, with spare ports to add cameras later.

Ports	24 PoE
Power budget	400 W
Mount	Rack

UniFi UPS 2U **Qty installed: 1**

Battery backup for the recorder and switch. Keeps recording through short outages and shuts the recorder down safely in a long one, so no footage is lost.

Rating	1.44 kVA
Managed	In UniFi
Mount	2U rack

Cat6 Network Cable **Qty installed: 16 runs**

A dedicated Cat6 run from each device back to the head-end. The same cable carries both data and power.

Cable	Category 6
Carries	Data + PoE power
Termination	RJ45 both ends, tested

UniFi Protect App **Qty installed: 1**

Watch every camera from your phone or computer, live and recorded, with alerts for people and vehicles. No monthly fees. Set up and tested on your devices before we leave.

Platforms	iPhone, Android
Requires	Site internet connection

Notes

1. Interior cameras cover the loading area, loading gate, first loading deck, both aisles, the back by the first aisle, reception, hallway, conference room and kitchen.
2. Every camera has its own cable back to the recorder, and everything runs on your own UniFi account with no monthly fees.
3. Abstract Enterprises does not do 120V electrical work or wall patching and painting.
4. Specifications are nominal. Equipment of equal or better specification may be substituted.
